ADVOCACY

Advocacy

A registered nurse shall perform duties consistent with the Nursing Practice Act including the Standards of Competent Performance, Title 16, Chapter 14, Section 1443.5 of the California Code of Regulations, which states,

(6) Acts as the client's advocate, as circumstances require, by initiating action to improve health care or to change decisions or activities which are against the interests or wishes of the client, and by giving the client the opportunity to make informed decisions about health care before it is provided.

According to our CSNO Mission Statement, a pillar of our purpose includes, “Advocating for school health services.” As a 501 (c) (3) organization, CSNO is able to engage in lobbying activities, but the amount of “lobbying” we engage in is limited. CSNO may participate in direct and grassroots lobbying, however, no 501(c)(3) organization may support or oppose a candidate for public office.

According to An Advocate’s Guide to Lobbying & Political Activity for Non-Profits (by Michael B. Trister and James D. Weill, 1991), “Direct lobbying is any attempt to influence a specific piece of local, state, or federal legislation. This can be done through contacting any member of the legislature, legislative staff or any government employee engaged in the formulation of legislation to persuade them to propose, support, oppose, change, or in any way influence legislation. Activities include face-to-face meeting with legislators and staff, sending letters or postcards to legislators, and presenting testimony on legislation to committees or sub-committees on a specific piece of legislation.

Grassroots lobbying is any attempt to get the public to act on local, state, or federal legislation. These activities may include legislative alerts, letter writing, fax, emails and telephone calls to encourage the public to contact legislators by identifying legislators on committees and informing the public about how to contact them.

An issue may be of interest in the local community or it can be a statewide issue that has an impact on your local community. CSNO advocates on a variety of issues revolving around nursing practice, children’s health, and school health services. As members of CSNO, we hope you will actively support the work that we do and that by becoming involved in the process you will also become more involved in your local community, where you live and work.”

Important strategies and considerations:

1) Develop a relationship with key leaders, before you need their help. Whether school board, city council or state legislators, it is important to develop a relationship with them before there is a pressing need. Attend school board meetings, focus on one or two members that are approachable, and stay in touch with them. Attend local town meetings or special meetings when a legislator is in town, and is looking for a dialog with voters. Visit or call your legislator’s district office to “chat” about school health issues. As a constituent, you are exactly what city council members and legislators look for! They want to work with you. They want your support and your vote! If you have a relationship before an important issue or piece of legislation develops then they are much more likely to listen to you. It also is important to develop a positive relationship with legislative staff. Many times they are actually more involved in the issue than your representative and are usually easier to approach. They can also smooth the way for a visit.
2) **Communicate with** your legislator, school board member, or city council member. Legislators maintain offices in both the local district as well as at the Capitol. In addition, setting up meetings in their elected legislative district may be easier and more likely to get a face to face with your representative. School board members are local people as are city council members. They are usually willing to meet at their district office or local school, or at City Hall during regularly scheduled times for such meetings.

Other means of contacting your representative include writing letters, sending emails or faxes, and making phone calls.

Invite your legislator and or his/her staff member to your local school nurse meetings or to visit your school site to observe the health services you provide. If you elect to do this, please make sure you notify your administrator that you have invited a representative. Also, if facilitating a meeting, make sure to minimize negative comments, you are attempting to build a relationship and build awareness.

3) **Do your research.** Know the pros and cons of the issue. Know the specific measure - the bill number, title, and sponsor(s). When meeting or writing the policy-maker, remember to personalize the issue by preparing information on how the bill will affect your community or your practice. Try to be as current as you can – current amendments, votes of the legislator, and where the bill is in the process. Review the background, interests, committee assignments, alliances, and voting record of the person you are going to meet. Know the opposition’s point of view as well.

4) **Educate yourself and use this handbook.** The information in this handbook provides information necessary to understand the legislative and budget processes in Sacramento, as well as the necessary tools to become involved. Much of the basic information can be transferred for use in your local community. At times, active advocacy at the local level can be more useful and productive, so never feel it is not worth your time.

It must be stressed, that unless you begin to take an interest in advocacy, change that will benefit school nursing, school, and children’s health will not occur. Read a few bills, try to thoroughly understand them, ask questions, and become involved in the process. You are a necessary and vital link in this process and we need your involvement to inform and educate legislators and the Governor with your visits and letters.

Take the time to educate parents, community members, staff, school administrators, and school board members on all of the school health and school nursing issues. We need local and grass roots support to help pass legislation important to school nurses and the children of California.
California School Nurses Organization

Position Statement

PUBLIC POLICY, LEGISLATIVE AND REGULATORY PARTICIPATION STATEMENT

STATEMENT

The California School Nurses Organization strongly endorses any opportunities and requests for credentialed school nurses to be active in public policy issues. It is imperative that credentialed school nurses be involved in the policy arena to impact the health and education of students and the practice of professional school nursing. Furthermore, credentialed school nurses must take timely and appropriate action regarding any public policy, legislative or regulatory activity related to school health issues and the school nurse role, and scope of practice in the school setting. This includes staying current on health issues, appropriate correspondence, and addressing individuals, groups and organizations regarding issues, key policies and regulatory areas that impact school nursing practice and the health and safety of school children. CSNO supports the employment of a legislative advocate to facilitate these actions.

RATIONALE

Credentialed school nurses have the background and expertise to enhance student academic success and promote the practice of professional school nursing. Credentialed school nurses advocate for the removal of health-related barriers to educational success through action in the public policy, legislative and regulatory processes. Failure to do so may result in detrimental changes to school health policy and the school nursing role. This may decrease overall accessibility of credentialed school nurses to students and students to credentialed school nurses. Credentialed school nurses and the California School Nurses Organization (CSNO) need to take active roles in educating local, state and federal legislators and policy makers about the improved academic success, increased graduation rates, and positive health outcomes that result from having credentialed school nurses in our schools.

VISITING YOUR LEGISLATOR

Legislators have offices in Sacramento, at the Capitol, and back in their home districts, where you go to work and live. If you do not know who your legislator(s) are, please visit:

Find Your Legislator

Search by Address

Once you identify who your legislator is, you may visit your legislator in Sacramento or back in their home legislative district. If traveling to Sacramento is difficult for you, scheduling an appointment for a home district meeting is a great way to develop a relationship with your legislator. In fact, it can be less hectic and stressful for everyone involved. Once you have met a few times, if you get the opportunity to visit Sacramento, you then will have a relationship with that legislator and the meeting at the capitol will be easier and less overwhelming.

1. **Schedule an appointment.** When you call to make an appointment, ask for the legislator’s scheduling secretary. If your legislator is unavailable, and that does happen, arrange to meet with the policy staffer handling the issue. The staff person can be just as important to meet with as the legislator. Be sure to let them know ahead of time what the topic will be, if it is in regards to a specific piece of legislation, and how many will attend.

2. **Plan out your agenda.** Be sure to cover key issues on the topic. Are you going by yourself or with others? Your team can be 2-4 people (no more than 4 are recommended because legislative office meeting rooms tend to be small) and each should make a comment. Have materials to leave behind – CSNO brochures or folders with pertinent information. Bring business cards - CSNO or if using your school district cards, ask for permission to use these cards.

3. **During the meeting.** Make key points as succinctly as possible; ask legislators/candidates if they have questions or concerns about school health issues. Don’t argue with the legislator/candidate if they attempt to argue or make statements such as, “yes, but have you thought about it this way? or I see your point but our point is.” Offer to be a resource on school health issues.

4. **If meeting on a specific bill –** share your side and ask if they are prepared to take a position as this time. If the response is positive, respond with appropriate, “We appreciate your support.” If the response is negative, ask, “What are your specific objections?”

5. **Thank them for their time, regardless of the outcome.** Send a thank-you note, restating the outcome of the meeting and whether or not they will support your issue. Restate your views and indicate your hope for a change in position if they don’t. Again, indicate your appreciation for his/her time spent with you. Include legislators on your email newsletter invite for “a day with a school nurse” and stay in touch.
WRITING LETTERS TO YOUR LEGISLATOR

Letters can be a useful tool to alert and educate legislators. After a bill has been introduced, letters can be written and sent to the author. Once the bill has been scheduled for a policy committee hearing, letters can be sent to the chair of that committee, as well as members of the committee. A copy could also be sent your legislator. Letters may be sent via regular mail, fax, or dropped off at the office. The letter should be sent at least one week before the hearing. Letters from the organization or from you personally may be sent to the committee office. Letters in support or opposition will usually show on the analysis and are also shared with the committee members. The analysis is prepared by a committee consultant and provides bill details, which include the who, what, why, and how of the bill and lists those in support or opposition. When writing a letter, it is important to send it on your own behalf and not of your district or school, unless you have permission from your administrator.

Senate Committees
Assembly Committees

The letter writing process needs to be repeated every time the bill moves to a different committee or to the respective Senate or Assembly floor. It is very important that the letter refer to the most recent version of the bill. If your position on the bill changes, because of amendments, it is also very important to let the author and committee members know as well.

When you are writing your letter:
1. Include the bill number, author, and a brief description of the bill.
2. State your issue and background facts.
3. State your position and what you want to happen (Support or Oppose).
4. Be brief and succinct, but still convey all of your points across.
5. Be specific about how the legislation would affect your students, families, community, or your practice.
6. Share any expertise and explain your connection to the subject.
7. Be positive and do not ask for the impossible.
8. Address your letter with proper titles.
9. Sign your full name and provide your complete address and telephone number.
When writing letters, it is important to use correct and appropriate titles. Please see the correct salutations below. Please make sure you spell the name of your representative correctly.

Hearings

Senate Hearings
Assembly Hearings

5. When talking with the legislative staff:
   a. State your name
   b. Share that you are a member of CSNO (if appropriate)
   c. Share that you are a school nurse or member of the health services team
   d. Share that you are from or work in the member’s home district
   e. Explain your position on the issue, simply and succinctly

6. Ask how the legislator expects to vote and urge the legislator to vote for your position
   a. If opposed, ask if a meeting is possible to discuss
   b. If in support, be appreciative
   c. If undecided, ask for a meeting or is there information you could send

7. If you speak to a staffer or receptionist, be sure to make a note of whom you spoke to. Request that your message be shared with the legislator. Follow-up with a letter stating that you called and you spoke with staff (name).
MISCELLANEOUS DO’S AND DON’TS OF ADVOCACY

1. Get to know your legislator and be aware of his/her committee assignments. Set up
   meetings in the district office on a frequent basis. Know which caucuses they are a part
   of.

2. If you are dealing with specific legislation, be sure to track the bill, and be aware of where it is
   in the process. If a bill is introduced in the Assembly or the Senate, it takes time before the bill
   is heard in the opposite house. Obtaining information on a specific piece of legislation you are
   following can be obtained from the author’s office, web sites, sponsors, and the committee
   consultant. It is always important to read the legislation as introduced and follow the
   amendments, if any, as they occur.

3. Get to know the district staffers and develop a relationship with the policy staffer who is
   responsible for health and education. Keep district staff aware of school health issues and
   invite them to school health functions.

4. Always try to maintain a cordial relationship with your representative and staff, even if you
   don’t always agree. Do not become hostile or defensive if things don’t go your way – know
   how to lose. It is appropriate to ask why a legislator voted as they did. Focus on the issues
   and not the person.

5. Don’t speak beyond your level of expertise. It is fine to say “I don’t know, but will get back
   to you.” Be sure you do follow-up.

6. Remember to say and write thank you notes for meetings and follow-up on any
   information you promised that is/was pertinent to your conversation.

7. Regardless of the legislator’s position on your issue, invite the legislator to a section
   meeting, or to “a day in the life of a school nurse”. Let him/her see what school nurses are
   interested in and what they do.
CSNO GOVERNMENT RELATIONS COMMITTEE

The Government Relations Committee (GRC) is charged with reading appropriate legislation and through discussion, determines CSNO’s official positions on bills based on our (CSNO) Mission and Position Statements.

The Chairperson of the Government Relations Committee is appointed by the CSNO State President. The members of the GRC Committee are from each of the five sections of CSNO. They are appointed by the Section Presidents. Each Section is encouraged to have an ad hoc committee, to allow the Chairperson to discuss legislation. This also encourages more participation and allows for training, so that more members are comfortable with both advocacy and CSNO’s process, and are willing and interested to move up to the position of chair, when it becomes available. In addition, the CSNO president, president-elect, and immediate past president are consultant members of the GRC committee.

Legislation meeting CSNO interests and/or priorities are brought before the Committee to be screened. The committee members read and discuss the bills. This is usually done either by a scheduled telephone conference or by email where further discussion may occur and a committee vote is then taken. Bill positions are determined by a simple majority vote.

Once a position on a bill has been taken, the GRC committee recommendation is communicated to the CSNO President and the Executive Committee. CSNO general membership is made aware of CSNO status through the Bill Status Report, available on the CSNO website.

Amendments on bills many times necessitate further discussion. There are times, when extremely quick action is necessary, and communication between the CSNO President, CSNO’s Legislative Advocate, and the GRC may only occur through individual phone calls and emails.

When letters and phone calls from the membership are needed, the CSNO office sends e-mails, to all members. Interested members who have expressed an interest to further be involved may be contacted by either the CSNO office or the GRC Chairperson through separate e-mail communication.
CSNO LEGISLATIVE POSITIONS ON PROPOSED LEGISLATIONS

**Sponsorship:** An idea that CSNO wants to become law. A legislator becomes the author and introduces the bill. As sponsors, we fully support the bill, testify at hearings, attend all meetings relating to the bill, and are active in the grassroots of the issue.

**Support:** Advocate for passage and signature, write letters of support, testify at hearings, and may activate members to write letters and make phone calls.

**Support, if amend:** Suggest amendment or raise issues that either obtain our support or we will become neutral.

**Watch:** Will track bill as it moves through the process as it may impact school nursing.

**Neutral:** CSNO is unable to respond to all bills with limits of time, money and resources. No advocacy on the bill, issue may not be pertinent to our issues.

**Oppose:** Advocate to kill the bill or advocate for amendments that remove our opposition, write and testify on issues, may activate grassroots.

**Oppose unless amend:** Unless our amendments or removal of language are accepted, we will oppose.
How a Bill Becomes a Law

1. Bill is introduced
2. Committee Hearings
3. If passed (Sent to other house)
4. Floor Action
5. If passed with amendments
6. If passed without amendments
7. Returned to original house
8. If original house concurs
9. Bill goes to Governor
10. If not vetoed
11. Most bills become law January 1 of the next year
HOW TO READ A BILL

In order to analyze a legislative bill, it is important to first understand how a bill is constructed. All legislative bills in California follow a structure that is easily reviewed for information.

1. Basic information:
   Bills are available to the public in 2 ways:
   1. You may request a copy in person, at the Capitol, in the bill room
   2. Downloaded from the Legislative Counsel website http://leginfo.legislature.ca.gov/
   3. Click on Quick Bill Search:

      Bill Number 
      Keywords(s)

   4. The document will download in one of two forms:
      a. In PDF Format (this looks identical to the actual printed copy of the bill)
      b. In HTML Format
   5. Personal preference and the purpose for which you have searched for the bill will determine which version works best for you. Both versions are similar in the upper portion of the document.

2. The top portion on the front page of the bill includes:
   1. The house of origin and sequential number of the bill
   2. The author (name of the legislator who is carrying the bill) is shown as the member who “introduced” the bill
   3. Any co-authors
   4. The date the bill was first introduced
   5. The date(s) the bill is amended, with the most recent amended date listed first

Please see example below
3. **Reference and analysis information**:

1. Next is information that will help you understand what the bill will do, and how it may move through the legislative process. A brief description of the purpose of the bill (e.g. an act to amend a section of the Education Code).

   An act to add Article 1.5 (commencing with Section 49420) to Chapter 9 or Part 27 of Division 4 of Title 2 of the Education Code, relating to pupil health care services.

2. The Legislative Counsel’s Digest gives an explanation of what the bill would do and what type of bill it is.
   1. It summarizes existing law
   2. It tells how the bill will change that provision of existing law
   3. It gives you reference information
      a. What kind of vote is required (majority or two-thirds)
      b. Whether money is appropriated
      c. Whether fiscal committee
      d. Whether it includes a state mandated local program, or is an urgency measure

   Please see the example below.
4. **The main body of the bill:**

1. The actual text of a bill and the only part that becomes law begins with the italicized sentence:

   "The people of the State of California do enact as follows:"

2. Bill content is organized into numbered sections. Each section covers a separate idea or action.
3. Most proposed actions change statutory law in one of three ways:
   a. **Add** a new section or sections to existing codes
   b. **Repeal** an existing code section
   c. **Amend** a particular code section (this is the most common action)
4. An action could be to order, direct, or require a particular action or event.
5. Statements of legislative intent, findings, or declarations are the most common ideas proposed.
6. The word “section” appears frequently in bills and can be confusing. Sections of the bill are in capital letters and, except for the very first section (SECTION 1), are abbreviated (SEC. 3, etc).
7. When it appears in the body of the text, the word “section” (followed by a number) refers to a specific California Code Section. If more than one code section is added, repealed or amended, each is a separate action and has its own SECTION of the bill.

5. **Repealed and/or omitted contents appear in strikethrough. Added content appears in italics:**

1. If an entire new code section is added, it appears in plain text. Bill SECTIONS to amend a Code Section usually combine italics (language to be added) and strikethrough (language to be omitted), but only the original very first version of a bill will show how current law will be changed. Italics and strikethrough in later amended bills show only the changes from the previous version of the bill.
2. It is important to read and compare the first introductory version of the bill to later amended versions.

3. It is important to read current code that is proposed to be changed. Bills often contain large amounts of existing code and it is easy to get confused and assume that current code is the proposed code, when in-fact it is not. Be very sure that any concerns you have about proposed legislation refer to the actual proposals, not existing law!

6. **Origin, intent and purpose:**

1. Every bill is introduced for a reason. Some of those reasons may seem very frivolous, and others may seem serious and important. It is important to understand:
   a. Legislation starts as an idea from somewhere – a concerned citizen, a special interest group (including business, labor and organizations) local or state government agencies, the Governor and even the legislators themselves.
   b. Most statutory law is designed to regulate behavior - whether something is happening that shouldn’t be, or should be restricted; something is NOT happening and it should be; or something must be enabled (like a federal program).
   c. Finding out who proposed the bill and why can give you a better understanding of the bill.

2. The bill author’s office, in Sacramento, can provide specific information about the origins of the bill, including the sponsor and why it was proposed.

3. Many bills begin with legislative intent language and findings and declarations that explain the general good of the bill and reason for its need. These usually become part of the code, but are not directly enforceable. Their main function is advisory and they can be used by courts to interpret the law if a legal challenge arises. Sometimes bills include definitions and responsibility statements that designate an implementer or enforcer.
TIPS FOR ANALYZING A BILL

1) **Preliminary review:**

Get an overall feel for the bill by doing a quick scan. Look for action language and verbs such as "shall," and "may." Look for primary goals of the bill, "who" would be affected by the proposed changes. Then go back and study the bill in more detail.

2) **In-depth study:**

1. On a separate piece of paper, make some general headings:
   a. Purpose (what the bill will actually do)
   b. Policies (Ed Code, Business & Professions Code, etc.)
   c. Administration (who will oversee – CDE, BRN)
   d. Financing (is there a cost, and if so, how will it be paid for?)

2. Many bills are written so that the information you need is difficult to pull out. It may be scattered throughout the bill or the bill’s language may be very complicated and technical. Provisions may be hidden deep in the bill, and sometimes they can be in opposition to a policy stated in the bill! Other bills are simple, straightforward, and easy to read.

3. The PDF version of bill is helpful because you can jot down both page number and line number, making it easier to go back and find the areas of concern. A highlighter is also helpful.

3) **Key issues:**

1. Mandates - The most important verb is “shall”, which is a mandate. “May” is permissive.
2. Cost/appropriations – How will the action of the bill be funded? Is it one-time costs? Will it affect local budgets or require state general funds?
3. Additional or follow-up actions – Does it call for regulatory bodies, commissions or task forces or other regulatory action?
4. Who is affected and how? – It is helpful to know
5. who has sponsored the bill. Who wants the change and who is opposed to it, and what the unintended consequences might be.
6. What would be the result if the bill were NOT enacted?
7. When a bill is heard in its first policy committee, that committee makes available an analysis of the bill. This includes:
   a. summary of the bill
   b. the need for the bill
   c. background information (including current law)
   d. an analysis of what the proposed bill specifically will do
   e. staff comments (including other related proposed legislation and concerns) and will also include any groups that have gone on record in support or opposition to the bill.
4. **Additional Tips Regarding Bill Analysis:**

Official committee analyses can be very helpful in helping an individual or committee to understand a bill. Because some bills are difficult to understand and analyze, groups are sometimes slow to take a position on a bill. The first policy committee analysis may assist in your understanding of the bill. Since bills are heard in both houses, please recognize your comments or position may be recorded in the second house or when giving testimony at the hearing, rather than when you submit correspondence.

Some bills are introduced but are never moved, while others may have opposition that prevents them from getting the necessary votes to move from their policy or appropriations committee.

Support for a bill too early in the process presents its own set of difficulties if amendments occur that change the focus of the bill or cause you to need to change your position.

Analyses and positions from other groups can also help you to understand a bill. Many organizations have websites that, at the very least, list bills and positions. A few will also offer a brief analysis and reasons for their stated positions.

Bills can be “gutted and amended” at any time during the legislative process. This means that bill language can suddenly change to a focus on a completely different subject.

GLOSSARY OF LEGISLATIVE TERMS

A

Across the Desk - The official act of introducing a bill or resolution. The measure is given to the Chief Clerk or his or her representative at the Assembly Desk in the Assembly Chamber or to the Secretary of the Senate or his or her representative in the Senate Chamber. The measure then receives a number and becomes a public document available from the bill room (or at www.leginfo.ca.gov). Each proposed amendment to a measure also must be put across the desk in the Assembly or Senate in order to be considered for adoption.

Act - A bill passed by the Legislature and enacted into law.

Adjournment - Termination of a meeting occurs at the close of each legislative day upon the completion of business, with the hour and day of the next meeting being set prior to adjournment.

Adjournment Sine Die - Final adjournment of the Legislature; regular sessions of the Legislature, and any special session not previously adjourned, are adjourned sine die at midnight on November 30 of each even-numbered year.

Adoption - Approval or acceptance; usually applied to amendments, resolutions, or motions.

Amendment - Proposal to change the text of a bill after it has been introduced. Amendments must be submitted to the Legislative Counsel for drafting or approval.

Appropriation - The amount of money made available for expenditure by a specific entity for a specific purpose, from the General Fund or other designated state fund or account.

Appropriations Limit - A limitation in the California Constitution on the maximum amount of tax proceeds that state or local government may appropriate in a fiscal year. The limit is based on 1986-87 fiscal year appropriations, and is adjusted annually.

Approved by the Governor - Signature of the Governor on a bill passed by the Legislature.

Archives - Refers to both location and contents of public records kept by the Secretary of State, including copies of all measures considered at each session, journals, committee reports, and documents of historic value.

Chapter - When a bill has been passed by the Legislature and enacted into law, the Secretary of State assigns the bill a "chapter number" such as "Chapter 123, Statutes of 1992," which is subsequently used to refer to the measure in place of the bill number.

Chapter Out - When, during a calendar year, two or more bills amend the same section of law and more than one of those bills becomes law, the bill enacted last (and therefore given a higher chapter number) becomes law and prevails over the bill or bills previously enacted (see Double Joint).

Conferees - Members of a conference committee.

Conference Committee - Usually composed of three legislators (two voting in the majority on the disputed issue, one voting in the minority) from each house, a conference committee meets in public session to forge one version of a bill when the house of origin has refused to concur in amendments to the bill adopted by the other house. For the bill to pass, both Assembly and Senate must approve the conference committee version. The Speaker chooses assembly conferees; the Senate Committee on Rules chooses Senate conferees.

Consent Calendar - File containing non-controversial bills, which are passed unanimously.

The publication provides information about bills to be considered at upcoming committee hearings and bills that are eligible for consideration during the next scheduled floor session. Pursuant to Joint Rule 62(a), any bill to be heard in committee must be noticed in the Daily File for four days, including weekend days. The Daily File also contains useful information about committee assignments and the legislative calendar.

Daily History - Produced by the Assembly and Senate respectively the day after each house has met. The History lists specific actions taken on legislation. Each measure acted upon in that house the previous day is listed in numerical order.

Daily Journal - Produced by the Assembly and Senate respectively the day after a floor session. Contains roll call votes on bills heard in policy committees and bills considered on the floor, and other official action taken by the body. Any official messages from the Governor are also included. A Member may seek approval to publish a letter in the Journal on a specific legislative matter. At the end of a legislative session, the Journals are bound.

Digest - Prepared by the Legislative Counsel, it summarizes the effect of a proposed bill on current law. It appears on the first page of the printed bill.

Double Refer - Legislation recommended for referral to two policy committees for hearing rather than one. Both committees must approve the measure to keep it moving in the process. Typically used for sensitive subject areas that transcend the jurisdiction of one policy committee. The Assembly and Senate Committees on Rules make Bill referrals for their respective houses.

Dropped - Author has decided not to pursue the passage of the bill.
E

Enacting Clause - The following phrase at the beginning of the text of each bill: "The people of the State of California do enact as follows."

A resolution, when enrolled, is filed directly with the Secretary of State.

Legislation is taken up on the Assembly or Senate floor in chronological order according to file number. Items considered on the floor are ordinarily referred to by file number.

First Reading - Each bill introduced must be read three times before final passage. The first reading of a bill occurs when it is introduced.

Fiscal Bill - Generally, a measure that contains an appropriation of funds or requires a state agency to incur additional expense. The Legislative Counsel's designation of whether a bill is a fiscal bill appears at the end of the Digest found in the printed bill. The Assembly and Senate Appropriations Committees must hear fiscal bills in addition to the policy committees in each house.

Fiscal Committee - The Appropriations Committee in the Assembly and the Appropriations Committee in the Senate, to which policy committee refers each fiscal bill upon approval. If the fiscal committee approves a bill, it then moves to the floor.

This is always the bill's author in the house of origin, and a Member of the other house designated by the author when the other house considers the bill. The name of the floor manager in the other house appears in parentheses after the author's name in the second or third reading section of the Daily File.

Floor Pass - A visitor may not observe the Assembly or Senate from the rear of the chamber without a floor pass. Assembly passes are issued by the Speaker's office; Senate passes are issued by the President pro Tempore's office. Passes are not required for the viewing area in the gallery above the chambers.

Four-Day File Notice - As set forth in Joint Rule 62(a), the requirement that each bill in the first committee of reference be noticed in the Daily File for four days prior to the committee hearing at which it will be considered. At a second or subsequent committee of reference, a notice of only two days is required.

Germaneness - Referring to the legislative rule requirement that an amendment to a bill be relevant to the subject matter of the bill as introduced. The Legislative Counsel may be asked to opine on germaneness, but the matter is subject to final determination by the full Assembly, or the Senate Committee on Rules.

**Inactive File** - The portion of the Daily File containing legislation that is ready for floor consideration, but, for a variety of reasons, is dead or dormant. If this happens during the first year of a 2-year session, it automatically becomes a 2-year bill. An author may move a bill to the inactive file, and move it off the inactive file at a later date. During the final weeks of the legislative session, measures may be moved there by the leadership as a method of encouraging authors to take up their bills promptly.

**Initiative** - A legislative proposal to change statutory law or the California Constitution, submitted directly by members of the public rather than by the Legislature, and requiring voter approval at a statewide election. To qualify for a statewide ballot, a statutory initiative must receive signatures equal to 5 percent, and a constitutional amendment initiative must receive signatures equal to 8 percent, of the votes for all candidates for Governor at the last gubernatorial election.

**Inquiry System** - A database containing bill analyses, bill status, bill text, votes, and other useful information for bill tracking and research by legislative employees in Sacramento and district offices. The system is maintained by the Legislative Data Center, which is a part of the Office of Legislative Counsel.

The law requires formal registration with the Secretary of State if an individual's lobbying activity exceeds 25 contacts with decision makers in a two-month period.

**Legislative Analyst** - The Legislative Analyst, who is a legislative appointee, and his or her staff provide thorough, nonpartisan analysis of the budget submitted by the Governor; also analyze the fiscal impact of other legislation and prepare analyses of ballot measures published in the state ballot pamphlet.
**Legislative Counsel** - The Legislative Counsel (who is appointed jointly by both houses) and his or her legal staff are responsible for, among other things, drafting all bills and amendments, preparing the Digest for each bill, providing legal opinions, and representing the Legislature in legal proceedings.
